

## Home Affordable Foreclosure Alternatives

### **A streamlined approach for short sales and deeds-in-lieu to help more borrowers avoid foreclosure**

As a component of the Making Home Affordable Program (MHA), the Home Affordable Foreclosure Alternatives (HAFA) initiative offers eligible borrowers who did not qualify for or complete a permanent modification under the Home Affordable Modification program (HAMP) or another home retention option to avoid foreclosure. HAFA solutions help stabilize communities by limiting foreclosures in surrounding neighborhoods and allow affected borrowers to transition into more affordable housing.

#### **› Program Eligibility**

- The initiative is mandatory August 1, 2010, for first-lien mortgages owned, guaranteed, or securitized by Freddie Mac that were originated on or before January 1, 2009, and it will expire December 31, 2012.
- Eligible properties are single-family 1-4 unit primary residences, including condos, *Single-Family Seller/Service Guide* (Guide)-eligible manufactured homes, and negotiated conforming jumbos.
- Servicers must verify that the borrower is occupying the property as a primary residence, and it is not abandoned, condemned, or vacant (without an applicable exception).
- Borrowers must meet the basic eligibility criteria for HAMP, but not qualify for or complete a HAMP modification or other Freddie Mac home retention solutions.
- Borrowers must be more than 60 days delinquent and have cash reserves less than the greater of \$5,000 or three times their current monthly mortgage payment.
- Borrowers who may be in foreclosure, in pending litigation involving the mortgage, or who are in active bankruptcy may be eligible for this initiative.
- Borrowers must be able to convey a clear, marketable title to the mortgaged property.

#### **› Key Features**

- The initiative strives to help borrowers who do not qualify for or complete a HAMP permanent modification, or other Freddie Mac foreclosure alternatives, transition into more affordable housing and avoid foreclosure.
- Servicers must proactively offer a HAFA Short Sale to eligible borrowers and use standard documents and tools.
- All potentially eligible borrowers must be considered for HAFA before the mortgage is referred to foreclosure or a pending foreclosure sale is conducted.
- Borrowers cannot make cash contributions or promissory note obligations to satisfy either the first lien or subordinate liens, and upon completion of the HAFA Short Sale or HAFA Deed-in-Lieu all mortgage debts are extinguished.
- Borrowers and Servicers may receive incentives for successfully closing a HAFA Short Sale or HAFA Deed-in-Lieu, subject to certain requirements.
